Foreign Currency

The U.S. dollar is the functional currency of the Organization. Nevertheless, PIVOT operations require use of two currencies: United States Dollars (USD) and Malagasy Ariary (MGA). The organization's financial statements are presented in USD. On a quarterly basis, the consultant accountant receives a report from the in country finance manager detailing the expenditures incurred in Madagascar in MGA. The finance manager also provides the consultant accountant with an average currency conversion rate for the quarter, calculated based on the timing of local currency purchases during the quarter in question.

This rate is then used to convert expenses incurred in Madagascar during the quarter in question to USD. The USD amounts are then uploaded into the US QuickBooks software. The same conversion rate is used to determine the value in USD of the MGA account balances in country at the end of the quarter in question.
