# **INDEPENDENT AUDITORS' REPORT**

We have audited the accompanying financial statements of PIVOT Works, Inc. (the Organization), which comprise the statements of financial position as of December 31, 2018 and 2017, and the related statements of activities, functional expenses and cash flows for the years then ended, and the related notes to the financial statements.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

# Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Organization's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of PIVOT Works, Inc. as of December 31, 2018 and 2017, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

# 1. Nature of Organization and Summary of Significant Accounting Policies:

*Nature of Organization*: PIVOT Works, Inc. (the Organization) is a nonprofit organization incorporated on August 16, 2013 under the laws of the Commonwealth of Massachusetts. The Organization provides healthcare services in Madagascar. In Madagascar, the Organization combines a moral agenda of rights-based healthcare with the practical goals of Health System Strengthening (HSS) at three critical levels of the health system: community health workers, health centers, and district hospitals. Substantial resources are dedicated to strengthening and maintaining essential health system infrastructure, such as medical facilities, equipment, personnel, ambulances and dispensaries.

The Organization also has a research program that focuses on measuring the disease burden in the population outside of the health facilities. In some instances, the research efforts are also directed to basic science questions that have long-term potential to contribute to a basic understanding of underlying causes of poverty and disease.

*Basis of Presentation*: The financial statements of the Organization have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP). The Organization reports information regarding its financial position and activities according to the following net asset classifications:

- *Net Assets without Donor Restrictions*: Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Organization. These net assets may be used at the discretion of the Organization's management and Board of Directors.
- *Net Assets with Donor Restrictions*: Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Organization or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

*Measure of Operations*: The statements of activities report all changes in net assets, including changes in net assets from operating and nonoperating activities. Operating activities consist of those items attributable to the Organization's ongoing healthcare and research services and activities. Nonoperating activities are limited to resources that generate return from investments and other activities considered to be of a more unusual or nonrecurring nature.

*Fair Value Measurements*: The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Organization has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

# 1. Nature of Organization and Summary of Significant Accounting Policies (Continued):

*Foreign Currency Reporting*: Foreign currency transaction gains and losses result from exchange rate fluctuations on transactions denominated in a currency other than the Organization's functional currency. The foreign currency transaction gain is recorded in other income in the accompanying statements of activities.

Contributions: Contributions received are recorded as net assets without donor restrictions or net assets with donor restrictions, depending on the existence and/ or donor-imposed nature of anv restrictions. Contributions that are restricted by the donor are reported as an increase in net assets without donor restrictions if the restriction expires in the reporting period in which the contribution is recognized. All other donor restricted contributions are reported as an increase in net assets with donor restrictions, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends purpose restriction or is accomplished), net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statements of activities as net assets released from restrictions.

Contributed property and equipment are recorded at fair value at the date of donation. Contributions with donor-imposed stipulations regarding how long contributed assets must be used are recorded as net assets with donor restrictions. Otherwise, the contributions are recorded as net assets without donor restrictions.

Contributions of services are reported as revenue and expenses without donor restrictions at the fair value of the service received only if the services create or enhance a nonfinancial asset or would typically need to be purchased by the Organization if they had not been provided by contribution, require specialized skills, and are provided by individuals with those skills. Contributions of goods and space to be used in program operations are reported as revenue and expenses without donor restrictions at the time the goods or space is received.

*Cash and Cash Equivalents*: The Organization maintains its cash in bank deposit accounts, which, at times, may exceed federally insured limits. The Organization has a cash management program, which provides for the investment of excess cash balances primarily in shortterm money market accounts, overnight investment accounts and tax-free money market fund investments, which are valued using Level 1 inputs. The Organization considers such highly liquid investments with original maturities of three months or less when purchased to be cash equivalents, except for those amounts that are held in the investment portfolio, which are invested for long-term purposes.

*Contributions Receivable*: Unconditional promises to give that are expected to be collected within one year are recorded at net realizable value. Unconditional promises to give that are expected to be collected in future years are recorded at present value of their estimated future cash flows. The discounts on those amounts are computed using risk-adjusted interest rates applicable to the years in which the promises are received. Discount amortization is included in contribution revenue. Conditional promises to give are not included as support until the conditions are met.

*Investments in Privately Held Securities*: The Organization accounts for investments in companies where its equity interest is below 20% and the Organization cannot exercise significant influence over the company under the cost method.

Impairment of Long-Lived Assets: It is required that longlived assets, including investments in privately held securities, be reviewed for possible impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future undiscounted net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. As of December 31, 2018 and 2017, the Organization has determined that there have been no significant events or changes in circumstances that would trigger impairment testing of the Organization's long-lived assets.

*Concentrations of Credit Risk*: Financial instruments that potentially subject the Organization to concentration of credit risk consist primarily of cash, cash equivalents, certificates of deposit, investments, and contributions and accounts receivable. The Organization maintains its cash, cash equivalents, certificates of deposit and investments with high-credit quality financial institutions. Contributions and accounts receivable are

carried at the outstanding principal balance, less an estimate for allowance for uncollectible receivables based upon management's judgment of potential defaults. Management determines the allowance for doubtful accounts by identifying troubled receivables balances and by using an assessment of the donor's credit worthiness. As of December 31, 2018 and 2017, management has determined all receivables are collectible and an allowance for doubtful accounts is not necessary.

*Property and Equipment*: Property and equipment are recorded at cost on the date of acquisition. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets, as follows:

Motor Vehicles	5 Years
Furniture and Fixtures	5 Years
Computer Software	3 Years

*Functional Allocation of Expenses*: The costs of providing the Organization's program and other activities have been summarized on a functional basis in the statements of activities. Expenses related directly to program activities are charged directly to program services while other expenses that are common to several functions are allocated based on management's estimates, among major classes of programs services and supporting activities.

The expenses that are allocated include the following:

Expense	Method of Allocation
Salaries and Related	Time and Effort
Occupancy	Employee Headcount

*Income Taxes:* The Organization is a nonprofit Organization as described in Section 501(c)(3) of the Internal Revenue Code and is exempt from federal and state income taxes on trade or business profits

generated by activities related to the Organization's exempt function. The Organization may be subject to federal and state income taxes for profits generated from trade or business activities unrelated to the Organization's exempt function. As of December 31, 2018 and 2017, management believes that the Organization has not generated any unrelated business taxable income.

The Organization assesses the recording of uncertain tax positions by evaluating the minimum recognition threshold and measurement requirements a tax position must meet before being recognized as a benefit in the financial statements. The Organization's policy is to recognize interest and penalties accrued on any uncertain tax positions as a component of income tax expense, if any, in its statements of activities.

*Use of Estimates*: Management has used estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities in its preparation of the financial statements in accordance with GAAP. Actual results experienced by the Organization may differ from those estimates.

*Subsequent Events*: Management has evaluated subsequent events spanning the period from December 31, 2018 through April 29, 2019, the latter representing the issuance date of these financial statements.

Recently Adopted Accounting Policies: On August 18, 2016, FASB issued ASU 2016-14, Not-for-Profit Entities (Topic 958) - Presentation of Financial Statements of Notfor-Profit Entities. The update addresses the complexity and understandability of net asset classifications, deficiencies in information about liquidity and the availability of resources, and the lack of consistency in the type of information provided about expenses and investment return. The Organization has adjusted the presentation of these financial statements accordingly. The ASU 2016-14 has been applied retrospectively to all periods presented.

# 2. Availability and Liquidity:
